

### Welcome

**B-Entrepreneur's** general aim is to support access to the most innovative and validated best practices in training and education in the field of entrepreneurship developed within the framework of the Lifelong Learning Programme (LLP) 2007 -2013. This will be achieved through a sound methodology with important milestones such a research and an articulated assessment of training tools in the field of entrepreneurship, which will also explore the methods and achievements in influencing decision makers. The project will contribute towards reaching the EU2020 and the Entrepreneurship Action Plan regarding the need of education in this field to promote a more competitive EU.

### The Project

Numerous individual LLP projects have been developed during the 2007-2013 period in the field of entrepreneurship. B-Entrepreneur will at a minimum identify and evaluate 300 LLP best practices in education carried out in 27 member states.

The best practice projects will be categorised under three main themes of:

- Entrepreneurship in disadvantaged groups
- Best practices in training methodologies in entrepreneurship
- Best practices in accompanying measures

After this preliminary desk research, 75 projects will be selected and analysed by a team of experts in each of the partner countries. Together with the desk research and further analysis, an ICT platform will be made available to all stakeholders to review and access the best examples of entrepreneurial education in Europe.

### The Online Library

The Interactive Online Library, where the best practices in entrepreneurship will be validated and updated, will be available in year two of the project.

### Where are we now?

On 26<sup>th</sup> -28<sup>th</sup> February 2014, the project partners participated in the first project meeting in Madrid. Several decisions have been taken and, by now, the partners are carrying on the research and evaluation of the 300 LLP Best Practices. We invite you to visit the newly created website - <http://b-entrepreneur.eu> , and give us some feedback about it. More news coming soon!

Best regards,

The project team at Meath Partnership
