As our stakeholder of a partner in this project, you may be interested in the following information.

B-Entrepreneur general aim is to support the access to the most innovative and validated best practices in training and education in the field of entrepreneurship developed in the framework of the LLP, especially focused on the target groups and valorization best practices. The project will contribute to reach the EU2020 and the Entrepreneurship Action Plan regarding the need of education in this field to promote a more competitive EU.

STATUS OF THE PROJECT

81 projects were analyzed by experts and implemented within the Online Library, now published on the site www.b-entrepreneur.eu .

The library is a powerful instrument aimed to consultation and sharing of the best practices analyzed, and contains the experts' point of view about them.

All projects are available for consultation, and descriptions of the best 26 have been translated into the languages of the partners, so to facilitate a first reading aimed at an eventual adoption of the best practice in a different country.

FINAL CONFERENCE

A Final Conference will be held in Madrid on 25th November 2015 to present the project and its products.
